

# TEUDELOFF & TOOLING INTERNATIONAL

WE THINK AHEAD  
WORLDWIDE

Teudeloff GmbH & Co. KG, together with Tooling International Ltd, has a long tradition and the highest reputation for the development and manufacture of first-class recess tooling for the world's fastener producing industry. We are uniquely responsible for the design and conception of the SΔS recess in its original form. The star-drive with integral conical profile brings significant benefits and value to the screw and, therefore, the installer. The SΔS pin and insert are available exclusively from Teudeloff to all screw producers of distinction.

## Benefits

- Increased, improved, optimal torque transmission
- Stick-fit properties for **swift and secure** installation
- Countersunk, raised-countersunk & pan head possibilities
- Avoids camout
- Tried, tested & approved: 25+ years performance history
- Multi-application: wood-working, house-building, decking, white-goods, etc. ...
- **Saves time, saves money, adds value**
